

Hospital-Acquired Condition Penalties, Year 3

Medicare is reducing payments to 769 hospitals with high rates of potentially avoidable infections and complications such as blood clots, bed sores and falls. This is the third year of the Hospital-Acquired Conditions Reduction Program, which was mandated by the federal health law to reduce patient injuries. Hospitals will lose 1 percent of each Medicare payment during the 12 months that began last October. This chart indicates which years hospitals were penalized under the program.
