Thank you. CDC won't talk to us unless we go through DSHS.

I just called the CDC and spoke to the information specialist. He reviewed the same guidelines that we have seen recommending 2hours. I asked him to escalate this question to someone more qualified. They have my work e-mail and I'm told to expect a response in the near future. Of course, we know the CDC is "stressed " currently.

I see. It never hurts to ask the CDC. I'll be traveling tomorrow so I won't be able to participate in a call more than likely

The facility that posed the question was [REDACTED] ED. They only have a few beds in their ED and struggle to keep on empty for that long.

The CDC guidelines were linked to the Health Alert, as you know. I don't feel comfortable offering any alternative shorter than 2 hours. I assume these smaller facilities are in [REDACTED] ?
